

ADD A TIMER TO ANY FAN*

Now you can add a timer to any exhaust fan with the new Falcon FNROT Run-On-Timer. Optimised for the Falcon range of fans, simply wire to the fan circuit behind the wall switch and select one of 4 delay-off settings on the 2 dip switches:

0.1s-20s

1s-75s

8s-11min

1min-90min

Perfect for all bathrooms and laundry areas that require extended periods of ventilation due to condensation issues and odours. Helps prevent mould and mildew.

Part No **FNROT**

Falcon Run On Timer Switch Max 150W 220 240V ac 50Hz Time Max 90 minutes

Specifications
Model: FNROT
Input Voltage: 220-240V~, 50Hz
Max. Load: 150W (0.68A) Motor only
Operating Temperature: -10°C ~ 50°C
Suitable for indoor use only
Switches shall be protected by 10A≤MCB≤35A
Ensure a fuse equal to 1.25A or less is in power supply

* Can also be used with bathroom fan light heaters – fan circuit only as well as standard lighting applications.
