

Electrical Solutions Servo & Convenience Stores

Update your servo and convenience store with up-to-the-minute electrical and data accessories from Trader, Australia's fastest growing brand of switches, sockets and wiring accessories.

We are local, Australian owned and represented in every state and territory.

Counter connections

We have a range of data and TV mounting accessories to ensure a professional installation of registers, monitors and electrical appliances including, integrated entertainment plates, recessed wall boxes, TV brackets, HDMI, leads and adaptors.

Power from above

Store layouts with centralised aisles often still require power for displays and LED lighting. Suspended ceilings make it difficult to install fixed power points.

That's where our Hyena Suspension Sockets can be economically wired in directly from above to provide safe and convenient power.

Energy efficient sensors

Maximise lighting efficiencies with Owl Infrared Sensors.

These offer full 360 degree detection with an 8 metre radius.

Sunset switching

Keep forecourt, car parking areas and signage lit from sunset to sunrise with our Hippo Sunset Switches.

Rated IP66 these are designed to last many years in the outdoors.

Energy smart outside

Our Owl Outdoor sensors offer a IP66 weather protection rating and are designed to withstand the elements.

The sensor lens covers a wide 110 degrees detection up to 18 metres.
