

Electrical Solutions for small factories & workshops

Maximise the safety of everyone in your manufacturing area or workshop with electrical solutions from Trader, Australia's fastest growing brand of switches, sockets and wiring accessories.

We are local, Australian owned and represented in every state and territory.

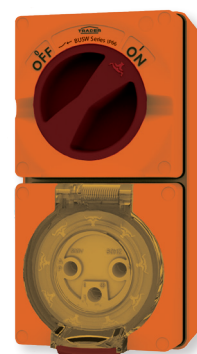

Electrical protection

Protect your workers and expensive air compressors and pneumatic equipment with our Buffalo switched socket combinations. Features our Wolverine RCD circuit protection inside the enclosure. Available in various amperages.

Long life performance

Using harsh chemicals in washdown areas? Switch to the Buffalo chemical resistant range of industrial switchgear, designed to meet the needs of workshop environments where intensive cleaning with these chemicals and exposure would otherwise damage standard switchgear.

Higher Power

Need overhead power for pneumatic tools and other equipment? Our suspension sockets give you safe and direct power from above. Available in 10A & 15A.

Charging up

Do you have a customer waiting area? Offer customers the convenience of phone charging with our Puma Type A&C USB chargers.

Office connections

Make sure your office has all the power points, USB chargers and data you need to run an efficient workplace.
