Connect with more.

Cloud Connect

Garage Doors

The smarter and safer way to open, monitor and share access with live door positioning.

Matter Connect

Smoke Alarms

Be the first to know if smoke is detected with the connected alarm for smarter monitoring.

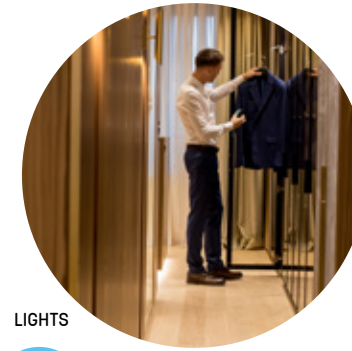

Make life easier by making your home smarter.

Our smarter switches require no extra wiring, it's never been easier. Personalise the features to suit you. Save time and money while enhancing safety and security, all controllable from anywhere, at any time.

The switch that turns itself off.

Save energy and extend appliance life with having your switch turn itself off. Safer and more hygienic, perfect for rooms you don't spend a lot of time in.

Turn on the kitchen lights

Hands free control with your voice.

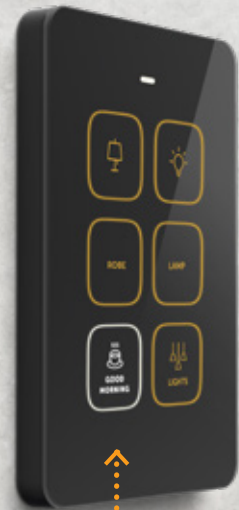

Control without lifting a finger—turn devices on or off, adjust light brightness, set fan speeds, and more, simply by speaking.

HEATERS

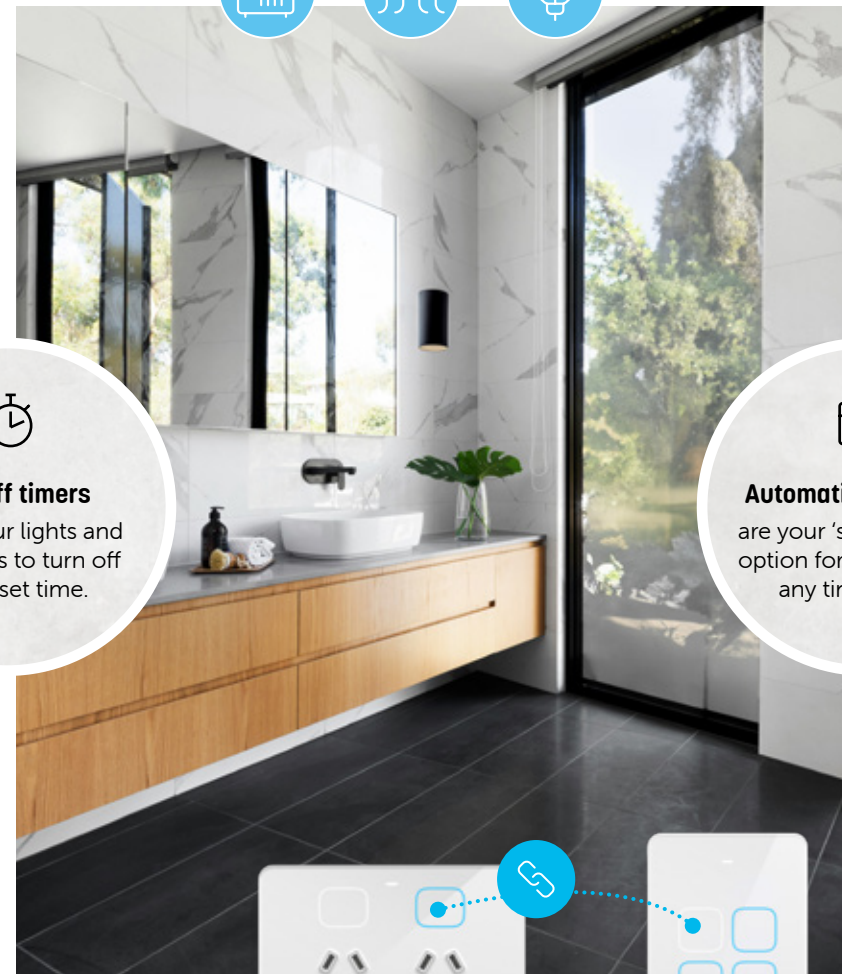

EXHAUST FANS

LIGHTS

Auto off timers

allows your lights and appliances to turn off after a set time.

Automatic schedules

are your 'set and forget' option for convenience any time or day.

Link switches without extra wires.

Link a switch to another switch without additional wiring. Use the spare switch to control lights, power points and fans or a switch in another room. Conveniently change links whenever you want.

Good Morning.

Trigger an automation at the switch or with your voice.

Wake up with bedroom lights turning on, heated towels in the bathroom and blinds opening — the perfect start to your day.

Smooth dimming with multi touch control.

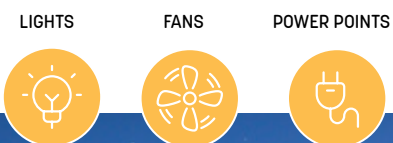

Set the perfect mood with dimming, simple control everyone can use.

- On / off / memory - single press
- Full brightness - double press
- Timed fade to off - triple press
- Dimming - press and hold

Schedules make it happen for you.

Set it once, so it happens automatically every day. Set the brightness, the fan speed or choose an action and a time to add comfort, convenience and security to everything in the home.

Good Evening.

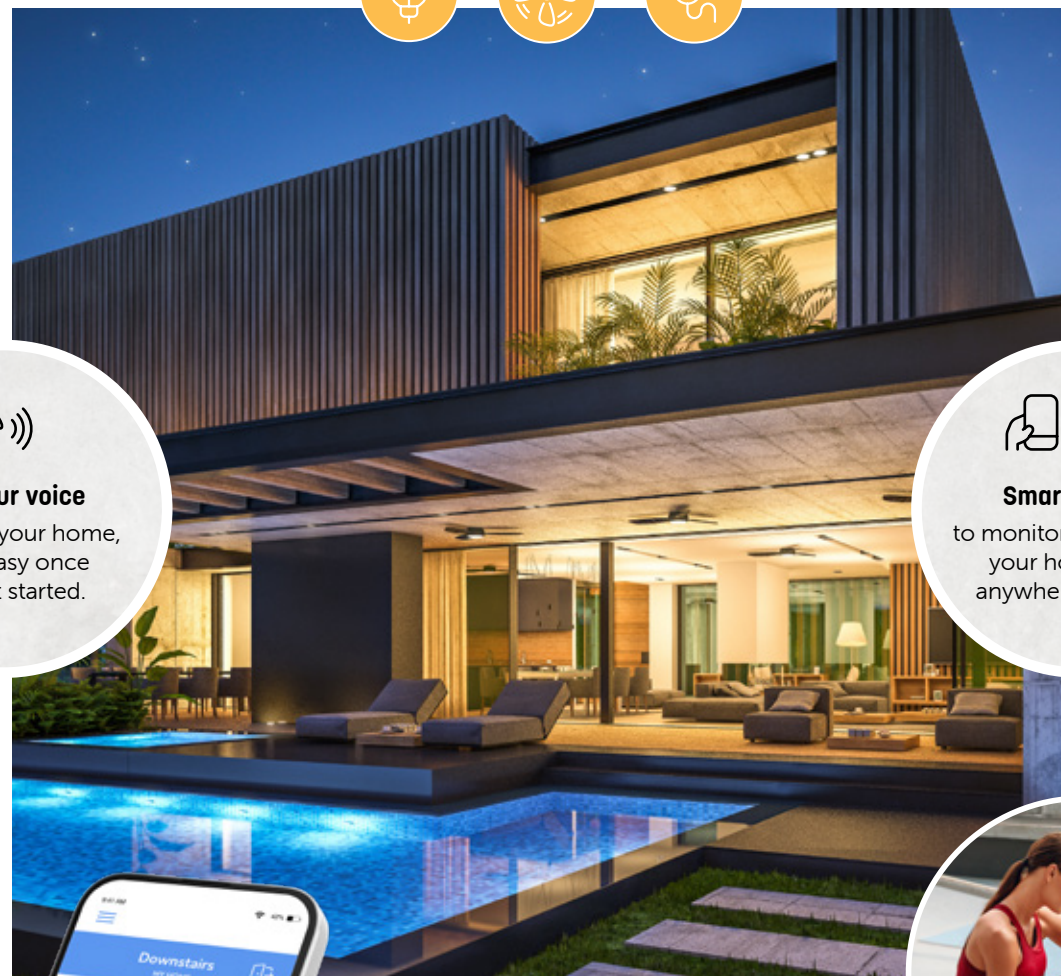

One button to control it all.

It's so easy to switch off with a single press. Turn off lights, close the garage door, turn off appliances, set the fan to slow and rest easy without a second thought.

(Automations work on your favourite smart home platform)

Use your voice
to control your home, it's so easy once you get started.

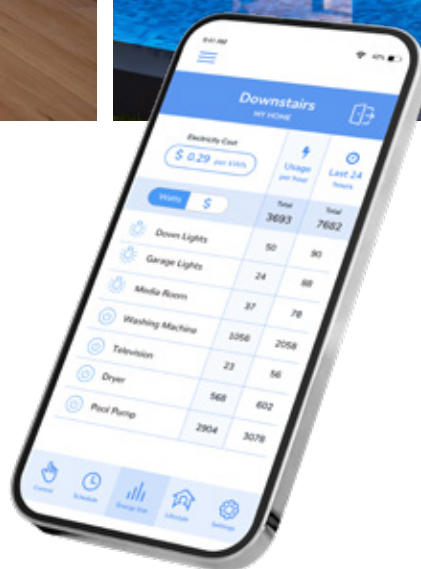

Smart control
to monitor and manage your home, from anywhere, anytime.

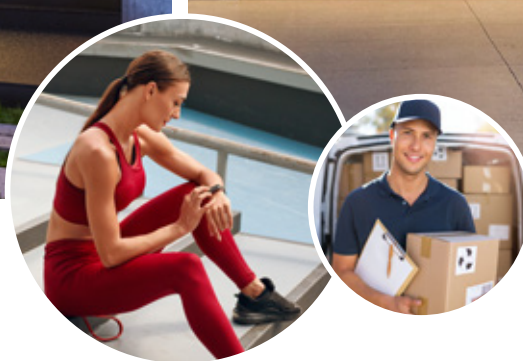

Plug in any appliance to make them smarter.

Easily manage power and appliances with schedules, auto-off timers, power locks, and control over individual sockets for safer energy use.

How much power is it using?

Understanding energy use is the first step in reducing your electricity bills. Monitor your energy use live in dollars and cents with the Zimi app.

**No keys.
No remotes.
No worries.**

Use your watch, voice or phone to open, monitor and share access to your garage door. Accept deliveries when out, receive notifications if it's left open or control with voice when driving.

Is the garage door open?
The garage door is closed.
